Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: In an effort to clarify the invention, Applicant's representative, Mr. Mattingly, discussed the limitations of claim 1 in comparison to limitations of the prior art of record. Examiner indicated that Applicant would have to file a formal response with arguments highlighting the "alleged" differences between Applicant's claimed invention and the prior art of record. Examiner additionally indicated that due to not having signatory authority, the Examiner was not in the position to make a decision on the case. However, upon filing a formal response, the Office would then be able to review the application in light of Applicant's arguments and formal response. No agreement was reached as for the allowability of the discussed claim. Applicant's representative further stated that a Request for Continued Examination along with an IDS will be filed for further consideration. .
